

Frontiers in Medical Research Seminars

Fall, 2007. Frontiers in Medical Research (FMR) Seminars will be held every week in Kiewit Auditorium from noon to 1 pm. The weeks will alternatively offer a translational presentation with two speakers presenting the clinical and basic science and a datablitz presentation of speakers outlining their research.

Contact Hours	DATE	SEMINAR SUBJECT	SPEAKERS
1	8-21-07	Class Day	Anne Cress, PhD
2	8-28-07	Neural Basis for Emotion and Disease	Katalin Gothard, MD, PhD Richard Lane, MD, PhD
3	9-4-07	Cardiocerebral Resuscitation and its Physiology	Gordon Ewy, MD Karl Kern, MD
4	9-11-07	Recent Advances in Ovarian Cancer Therapy/Epigenetic Opportunities for Biomarker Discovery	Setsuko Chambers, MD Bernard Futscher, PhD
5	9-18-07	Stroke, Aphasia and the Organization of Language in the Brain	Bruce M. Coull, MD Pelagie M. Beeson, PhD Steven Z. Rapcsak, MD
6	9-25-07	Cartilage Repair, Tissue Engineering and an Implantable Load Measurement System	William Grana, MD, MPH John Szivek, PhD
7	10-2-07	Diabetes Datablitz	Betsy Dokken, NP, MSN, CDE Erik Henriksen, PhD Leslie Ritter, RN, PhD
8	10-9-07	Regeneration of the Heart: Stem Cells vs. Cell Cycle Induction	Loren Field, PhD, Indiana University School of Medicine
9	10-16-07	Ischemia Reperfusion Injury Datablitz	Howard Lien, MD, PhD Paul McDonagh, PhD Leslie Ritter, RN, PhD
10	10-23-07	Glaucoma Management & Glaucoma Laser Surgery	David Epstein, MD, Duke University
11	10-30-07	Cardiovascular Datablitz	Brad Davidson, PhD Henk Granzier, PhD
12	11-6-07	Therapeutic Targeting of Oxidative Stress	Robert Dorr, PhD Tom Dragovich, MD, PhD
13	11-13-07	Microscopy Datablitz	Ann Baldwin, PhD David Elliott, PhD Art Gmito, PhD Henk Granzier, PhD
14	11-20-07	Obesity and Diabetes In America	Melissa Faulkner, DSN, RN Scott Going, PhD
15	11-27-07	Cellular Function in Heart Failure: Cell-Based Therapy	Steven Goldman, MD
